

VELLANKI NITISH BALA SOURI RAJ

+91 7013300517 nitishraj17042006@gmail.com LinkedIn GitHub Visakhapatnam, India

SUMMARY

Pre-final year B.Tech CSE student (CGPA: 9.11/10) with hands-on experience in IT infrastructure, cloud deployment, server-side programming, and database administration. Skilled in automating workflows, containerizing applications with Docker, and integrating AI tools into backend systems. Familiar with Linux environments, networking basics, and system administration concepts. Ranked 61st out of 4,000+ teams at NEC 2025 (IIT Bombay).

EDUCATION

Vignan's Institute of Information Technology

Visakhapatnam, India

B.Tech in Computer Science & Engineering – CGPA: 9.11 / 10

2023 – 2027

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java

Web & Backend Development: Node.js, Express.js, FastAPI, React.js, REST APIs

Databases: PostgreSQL, MongoDB, Redis, SQL (MySQL, SQLite)

Cloud & Infrastructure: Docker (containerization), CI/CD pipelines, Vercel, Render, Microsoft Azure (AZ-204)

System & Networking Basics: Linux terminal, server deployment, basic networking concepts, system administration

AI & Machine Learning: scikit-learn, Deep Learning (Neural Networks, CNNs), OpenCV, Python scripting, LangChain, AI workflow automation

Mathematics & Science: Linear Algebra, Probability & Statistics, Calculus, Data Structures & Algorithms

Tools: Git, Postman, Drizzle ORM

Certifications: Microsoft Azure AZ-204 | Lyzr AI Agent Architect

EXPERIENCE

AI & Prompt Engineering Intern

Jun 2025 – Jul 2025

VaultofCodes

Remote

- Designed 30+ templates for AI-based automation workflows, improving task accuracy by around 25%.
- Connected AI outputs to REST API backend pipelines to automate repetitive tasks.
- Reduced AI processing costs by about 20% by optimizing how inputs were structured.

AI & ML Intern

Apr 2025 – Jun 2025

GDG – EduSkill AP

Visakhapatnam

- Built an image classification system using Python and OpenCV, achieving around 92% accuracy.
- Improved model performance by 8% through better image preprocessing and feature extraction.

PROJECTS

Skill Connect – Web Platform | React.js, Node.js, PostgreSQL | GitHub

- Built a web platform with secure JWT login, database optimizations (40% faster queries), and automated CI/CD deployment.
- Ensured zero-downtime deployments using automated pipelines on cloud infrastructure.

URL Shortener Service | Node.js, PostgreSQL, Redis, Docker | GitHub

- Built and deployed a backend service handling 1,000+ simultaneous requests with response times under 50ms.
- Reduced database load by 60% using a Redis caching layer; cut response time from 120ms to 45ms.
- Containerized the full application using Docker for consistent deployment across environments.

SafeTrip AI – Travel Safety Platform | React, Node.js, PostgreSQL | GitHub

- Built a full-stack web application with user authentication, trip planning, and emergency response features.
- Designed 10+ REST API endpoints for authentication, trip management, and location-based services.
- Configured a relational database with 6 tables and automated setup scripts for development environments.

Multi-Agent Trading Dashboard | Python, LangChain, Streamlit | GitHub

- Built a Python-based stock market analysis tool integrating live data from Binance and WazirX APIs.
- Created an interactive dashboard with real-time charts for market trend monitoring and decision support.

Resume Screening Tool | *Python, FastAPI, scikit-learn* |

- Built an AI-powered tool that automatically matches resumes to job descriptions, processing 50+ resumes per minute.
- Reduced manual resume review effort by around 70% using ML-based similarity scoring.

Academic Monitor – Smart Attendance System | *Python, OpenCV, BLE, OTP* | *In Progress*

- Developing a facial recognition attendance system using OpenCV, targeting less than 2% false-positive rate.
- Designing a multi-layer anti-proxy system using Bluetooth Low Energy (BLE) proximity checks and OTP verification.

ACHIEVEMENTS & LEADERSHIP

- Ranked 61 / 4,000+ teams in NEC 2025 (National Engineering Competition) conducted by IIT Bombay.
- CodeChef 2-Star rated – strong problem-solving skills in data structures and algorithms.
- Web Development Lead at EDCELL VIIT – managed web projects for the college entrepreneurship cell.
